PROFESSIONAL SUMMARY:

Recent Information Technology graduate specializing in System Development with hands-on experience in full-stack web and mobile application development. Proficient in building responsive applications, RESTful APIs, and database-driven systems using modern technologies. Passionate about developing scalable, user-focused software and continuously expanding technical expertise.

WORK EXPERIENCE:

Speakify Team

IT Support Intern | November 2025 – April 2026

- Provided technical support by troubleshooting hardware, software, and system issues.
- Installed and configured Windows, device drivers, and essential software applications.
- Performed routine maintenance, system updates, and performance optimization of computer systems.

RELEVANT PROJECTS:

Web and Mobile-Based Monitoring, Progress Tracking, and Sales System for Energy Gym

Full-Stack Developer | October 2024 – November 2025

Technologies: Next.js, Flutter, PHP, MySQL, Tailwind CSS, Firebase, Hostinger (hPanel)

- Developed a web and mobile-based system for membership management, attendance monitoring, progress tracking, and sales reporting.
- Built responsive user interfaces, RESTful APIs, and MySQL databases using Next.js, Flutter, PHP, and Tailwind CSS.
- Implemented authentication, QR code attendance, analytics dashboards, and automated workflows to improve gym operations.

Pet Service Appointment System

Full-Stack Developer | Personal Project

Technologies: Next.js, Flutter, PHP, MySQL, Tailwind CSS

- Developed a web-based pet service appointment management system.
- Implemented booking, authentication, and database functionality.
- Designed a responsive interface for efficient appointment scheduling.

EDUCATION:

2022 – 2026 | PHINMA Cagayan de Oro College

Bachelor of Science in Information Technology Major in System Development

SKILLS:

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Flutter, Tailwind CSS

Backend: PHP, Node.js, RESTful APIs

Databases: MySQL, PostgreSQL, MongoDB, Firebase

Tools: Git, GitHub, VS Code, Android Studio, Visual Studio, Postman, Figma, Hostinger

Languages: Filipino (Native), English (Conversational)

CERTIFICATES & WORKSHOPS:

AI for Juan and Everyone: Hour of AI for Students — DICT Region X | March 24, 2026

WordPress Campus Connect Workshop — PHINMA Cagayan de Oro College | July 25, 2025

Bitskwela Dev Workshop — USTP Cagayan de Oro | June 17–19, 2025

AI & Data Analytics Webinar — PHINMA Cagayan de Oro College | March 7, 2025
